NEW INSTALL INSTRUCTIONS

These instructions are written for use when installing a 2GIG-GC CDMA Cell Radio Module into a 2GIG Control Panel when no module exists in the Control Panel. The 2GIG-GC CDMA Cell Radio Module is a snap-in cell radio that provides 2-way-voice to a Central Station, transmits security information to online portals, and delivers the latest Over-The-Air firmware updates to the 2GIG Control Panel.

IMPORTANT: The Control Panel Firmware must be version 1.9.4 or higher for the CDMA Cell Radio Module to work.

Box Contents

- CDMA Cell Radio Module
- 2 Screws
- 2 lock washers
- Install Instructions

IMPORTANT: As with all electrical appliances, a shock hazard exists if any electrical current is connected to the 2GIG Panel by AC Power or battery while inserting, removing or replacing parts.

Installing and Mounting

Before installing the 2GIG-GC CDMA Cell Radio Module make sure that both the AC power and the battery are disconnected from the 2GIG Control Panel:

1. Plug the Cell Radio Module into the 2GIG Control Panel.
2. Secure the Cell Radio Module with 2 screws and lock washers.
3. Connect the antenna to the Cell Radio Module.
4. Refer to the Antenna Install Instructions for further information.

LIMITED WARRANTY

This 2GIG Technologies product is warranted against defects in material and workmanship for 1 year. This warranty extends only to wholesale customers who buy direct from 2GIG Technologies or through 2GIG Technologies’ normal distribution channels. 2GIG Technologies does not warrant this product to consumers. Consumers should inquire from their selling dealer as to the nature of the dealer’s warranty, if any.

There are no obligations or liabilities on the part of 2GIG Technologies for consequential damages arising out of or in connection with use or performance of this product or other indirect damages with respect to loss of property, revenue, or profit, or cost of removal, installation, or reinstallation. All implied warranties for functionality, are valid only until the warranty expires. This 2GIG Technologies Warranty is in lieu of all other warranties expressed or implied.
EXISTING INSTALL INSTRUCTIONS

These instructions are written for use when replacing an existing 2GIG-GC CDMA Cell Radio Module in a 2GIG Control Panel. The 2GIG-GC CDMA Cell Radio Module is a snap-in cell radio that provides 2-way-voice to a Central Station, transmits security information to online portals, and delivers the latest Over-The-Air firmware updates to the 2GIG Control Panel.

**IMPORTANT:** The Control Panel Firmware must be version 1.9.4 or higher for the CDMA Cell Radio Module to work.

**NOTE:** When replacing a 2GIG-GC CDMA Cell Radio Module, make sure that the new module is registered with the user’s service provider.

**Box Contents**
- CDMA Cell Radio Module
- 2 screws
- 2 lock washers
- Install Instructions

As with all electrical appliances, a shock hazard exists if any electrical current is connected to the 2GIG Control Panel by AC power or battery while inserting, removing or replacing parts.

**Removing and replacing Cell Radio Module**

1. Disconnect the battery from the 2GIG Panel.
2. Disconnect AC power supply from power source.
3. Open up Control Panel.
4. Detach the antenna (see number 1 in figure).
5. Unscrew the screws (see number 2 in figure).
6. Pull the Cell Radio Module out carefully, without bending the pins (see number 3 in figure).
7. Plug the new Cell Radio Module into the 2GIG Control Panel by carefully placing it onto the pins.
8. Secure the module with 2 screws and lock washers.
9. Reattach the antenna.

**Removing an internal antenna**

1. Disconnect the battery from the 2GIG Control Panel.
2. Disconnect AC power supply from power source.
3. Lift up side flap on 2GIG Control Panel.
4. Detach the antenna.
5. Pull the internal antenna out from the side of the 2GIG Control Panel.

**Removing an external antenna**

1. Disconnect the battery from the 2GIG Control Panel.
2. Disconnect AC power supply from power source.
3. Open up 2GIG Control Panel.
4. Detach the antenna.
5. Pull the external antenna from where it was previously installed.
